

PURPOSE

Economic indicators allow economists, public policy makers, financial professionals, investors and others to check the state of the economy. Just as temperature, pulse and heart rate provide indications of a person's health, economic indicators serve as "vital signs" for the state of the economy.* In this document, you will find key pieces of data that will give you a clear view of the City of Danville's economic condition.

OUTLOOK

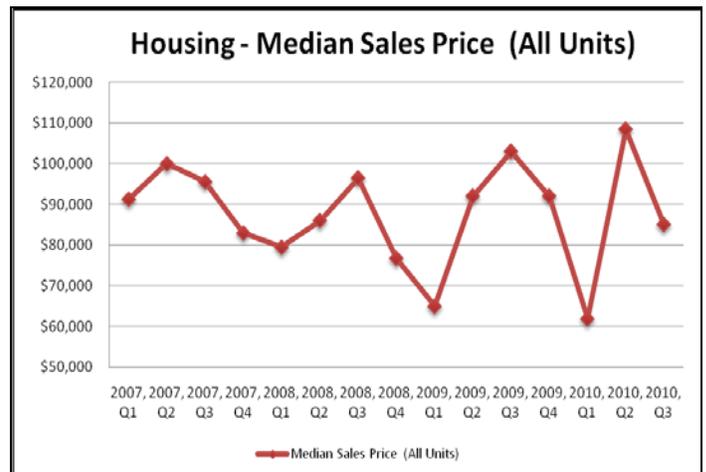

Based on the information below, the City of Danville's economy has experienced a slight downturn in some of its key indicators. The unemployment rate, median sales price of housing, and sales tax collected are showing negative changes compared to previous months. Even with this downturn and taking into consideration cyclical trends, the data still shows that the City has been able to improve in other key indicators, as well as show an overall trend of stability compared to previous years. As the City continues to focus its efforts on recruiting new businesses and industries, as well as supporting the expansion and increased investment within existing operations, the economy shows promise of positive change.
