

This report shows the status of Danville's key economic indicators as of October in the current fiscal year. Meals Tax collection totals were included this month to highlight the positive growth that has survived recession decline. Sales tax and machinery and tools tax collected are continuing on an upward trend from previous fiscal years, with a more dramatic increase in machinery and tools tax so far this year. Building permits and business license numbers are slow to catch up this month, but as River District investment continues and Main Streetscape comes to an end, we hope to see more improvement and positive change in Danville's economy.
